Effective trade operations, product expertise, supply

Our products from almost all production and cultivation regions within Russia.

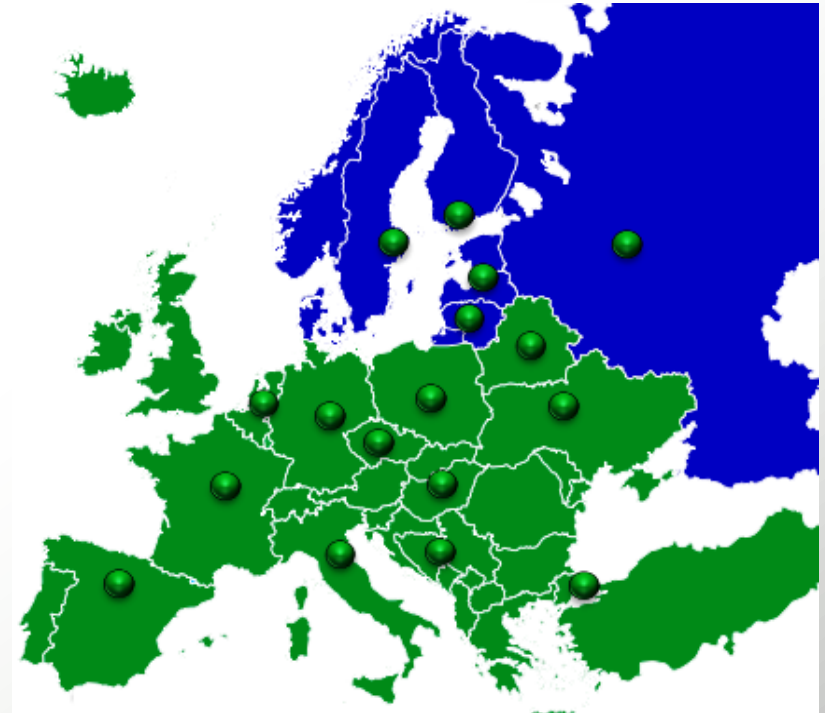

- ❑ Our service is aimed at international customers and offers a full range of logistics services
- ❑ We are ready to provide you with the best products in stock, form custom batches according to purchase orders and work out logistics schemes enabling us to meet delivery terms for products and raw materials in strict compliance with the needs of retail networks and producers
- ❑ Quality characteristics of goods and raw materials comply with strict international standards and individual customer's requirements ("tailor made"). We thoroughly examine each batch for compliance with contract specification requirements at all stages: from the production site to the end consumer. All the batches delivered have all necessary certificates in order in order they could be approved as compliant with sanitary-epidemiological and phytosanitary requirements and standards of the importing country.
- ❑ We control every stage of procurement and select reliable producers which enables us to guarantee the fulfillment of contractual obligations and protect our clients from risks arising from political and economic instability in producing countries, as well as crop failures and price fluctuations.
