Alionka: Sweet treasure - Plenty of pleasure!

*Milk chocolate in sticks.
Share the taste!
Share the pleasure!*

*Unique image since 1966.
Traditions and quality*

*Great choice for the
whole family*

In 1996, the Red October factory developed an excellent recipe for natural milk chocolate. The chocolate was called Alionka, in honor of the millions of little girls who love chocolate so much.

Today, after half a century, the recipe of this tastiest of milk chocolates **remains unchanged**. Little Alionka herself, the main character, also hasn't changed. The success of this unique design, that image of a little girl, has become so popular and iconic that sales of the Alionka family of products (chocolate, candies, biscuits and cakes) continue to grow in both Russia and in other markets.

Alionka unites generations: A brand beloved by both children and their parents.
